

Penan Preschool Mission Statement

Our vision

The Penan preschool seek to engage children in the learning process and encourage the development of every child 's intellectual, social, physic, artistic and creative potentials.

We seek to encourage personal and collective responsibility. Our mission is to support the Penan children and help them to be confident.

This will take place with the support and active participation of the parents and the elders, in order to provide an environment where the Penan children have the opportunity to learn and practice their own culture and language.

The program will be based on caring, creativity and pride following from the knowledge of their traditional community beliefs, within a safe environment.

Penan Preschool Mission Statement

What the school is not

The Preschool is not a day care

The School is not a canteen

The school is not a way to earn money for the village
